

VAAD - Video Asset/Library Management

VAAD is Video asset aggregation, indexing and retrieving software targeted at lower end of the video asset management segments like MSO (Multi service operators) legal compliance, IPTV service providers and OTT and Social Media content producers. It has simplified asset indexing UI so that MSOs and other content producers can manage video assets in digital format .

The screenshot displays the VAAD web application interface. At the top, there is a navigation bar with 'Upload Video', 'Manage Video', and 'Change Pwd' options. Below this is a search bar with fields for 'Upload Date', 'Video Title', 'Video Category', 'Video subcategory', and 'Keywords', along with a 'Go' button. The main content area is titled 'Manage Video' and contains a table of video assets. The table has columns for '#', 'Preview', 'Video Information', 'Description', 'Category', 'Subcategory', 'Keywords', 'Upload Date', and 'Edit/Delete' actions.
